

URIAGE

EAU THERMALE

THE PROTECTIVE FORCE OF THE FRENCH ALPS WATER FOR MY SKIN

THE WORLD OF URIAGE

Since 1992, the Dermatological Laboratories have incorporated the benefits of Uriage Thermal Water into its expert dermatological products to help all the family's skin on a daily basis. Today, its expertise is recognised in over 70 countries.

URIAGE IS:

The naturalness... of pure Water filtered by Alpine rocks discovered 2,000 years ago

The authenticity... of a thermal centre whose know-how has been recognised for 200 years

The safety... of innovative products that adhere to a strict quality charter

The togetherness... of the young and old, solving all skin issues and designing ever more comfortable formulas

RENOWNED DERMATOLOGICAL EXPERTISE

Uriage high-tech skincare is designed to preserve skin's health. It benefits from the properties of Uriage Thermal Water, which is combined with active ingredients renowned for their effectiveness and tolerance. Because of this expertise, Uriage products are prescribed by dermatologists and recommended by pharmacists around the world.

Uriage Thermal Water is collected at source to preserve its purity and natural riches. Uriage products are designed in accordance with the strict criteria of the cosmetic industry (quality control of air, raw materials and finished products, traceability, continuous statistical and biological monitoring).

A NATURAL AND UNIQUE THERMAL WATER

For over 2,000 years, Uriage Thermal Water has travelled through the heart of the French Alps, taking 75 years to pass through the rocks. As the seasons change, it becomes enriched with minerals and trace elements.

Over the course of this journey, it is blessed with unique properties:

- **An active Water** with a unique rich mineral content of 11 g/litre
- **A protective Water**, soothing and hydrating, the Water restores the physical barrier, reduces bacterial adhesion and virulence, and regulates the immune barrier
- **As an isotonic Water** like a physiological serum, it acts in harmony with the skin's cells

Filtered by nature, it emerges pure with all its benefits preserved.

THERMAL WATER

Thermal Water Spray

Hydrating, soothing and protective spray

Skincare water for daily use. A powerful treatment formulated with trace elements and mineral salts, a source of radiance for the skin.

FACE
